NEWS RELEASE

December 19, 2005

Mr. J. Lewis Dillman reports:

Abenteuer Resources Corp. (the "Company") and its joint venture partner are pleased to announce the completion of its Kingsford et al 1D8-13-1C7-18-4-6 Horizontal development well located in the West Kingsford area of south eastern Saskatchewan. The well has been drilled to a total depth of 1480 meters and encountered oil pay within the targeted Midale Marly zone. The lease is now awaiting the installation of a pumpjack and tank batteries to allow the well to be produced as a temporary single well battery.

Abenteuer and its partners plan to drill two additional development Horizontal wells at Kingsford in the first quarter of 2006. One of these locations directly offsets three Midale Marly horizontal wells recently drilled in the area. The Grand Banks W. Kingsford HZ 3C13-18-4C10-13-4-7W2 was reported to be producing at a rate of 175 bopd. The second location will be a pooled lease-line horizontal well drilled between two producing horizontals one of which had initial production rates of over 440 bopd.

**FOR AND ON BEHALF OF THE BOARD
ABENTEUER RESOURCES CORP.**

"J. Lewis Dillman"
