NEWS RELEASE

ABENTEUER RESOURCES CORP. CLOSES PRIVATE PLACEMENT

Vancouver, British Columbia, Canada. October 8, 2009. Abenteuer Resources Corp. (**ABU: TSX-V**) (the “**Company**”) is pleased to announce that it has closed its private placement previously announced on September 16, 2009 and October 1, 2009. Under the private placement, the Company raised \$385,000 through the issuance of 3,850,000 units at a price of \$0.10 per unit, with each unit comprised of one common share and one common share purchase warrant exercisable at a price of \$0.15 per warrant share for a period of 2 years.

All of the securities issued under the Company’s private placement are subject to a four-month hold period expiring on February 8, 2010, with additional hold periods applicable to US investors.

The proceeds of the private placement will be used for working capital requirements and development of the Company’s assets in Saskatchewan.

The participation of certain subscribers in the private placement constitutes a “related party transaction” under Multilateral Instrument 61-101 (“**MI 61-101**”), being certain of the directors of the Company. The Company is exempt from the formal valuation requirement of MI 61-101 in connection with the private placement because the Company’s securities are not listed for trading on specified markets set out in MI 61-101. The Company is exempt from the minority shareholder approval requirements of MI 61-101 in connection with the private placement because neither the fair market value of the securities issued, nor the consideration for such securities, in so far as it involves interested parties, exceeded \$2,500,000.

This release contains forward-looking information and statements, as defined by law including without limitation Canadian securities laws and the "safe harbor" provisions of the US Private Securities Litigation Reform Act of 1995 ("forward-looking statements"), respecting the Company's use of proceeds of the private placement. Forward-looking statements involve risks, uncertainties and other factors that may cause actual results to be materially different from those expressed or implied by the forward-looking statements, including without limitation the ability to obtain government and other necessary approvals; dependence on third parties for services; non-performance by contractual counterparties; the risks associated with the oil and gas industry (e.g. operational risks in development; exploration and production; delays or changes in plans with respect to exploration or exploration projects or capital expenditures; the uncertainties of reserves estimates; the uncertainty of estimates and projections relating to production, costs and and expenses, safety and environmental risks), commodity price, price and exchange rate fluctuation and uncertainties from potential delays or changes in plans with respect to exploration or development projects or capital expenditures. Forward-looking statements are based on a number of assumptions that may prove to be incorrect, including without limitation assumptions about: general business and economic conditions; the timing and receipt of required approvals; and ongoing relations with employees, partners and joint venturers. The foregoing list is not exhaustive and we undertake no obligation to update any of the foregoing except as required by law.
